International application No. INTERNATIONAL PRELIMINARY EXAMINATION REPORT

PCT/JP03/02578

I. Basis of the report					
1. With regard to the elements of the international application:*					
	\leq	the international application as originally filed			
		the desc	ription:		
_		pages	, as originally filed		
		pages	, filed with the demand		
		pages	, filed with the letter of		
Γ	\neg	the clair	ms·		
L		pages	, as originally filed		
		pages	, as amended (together with any statement under Article 19		
		pages	, filed with the demand		
		pages	, filed with the letter of		
[\neg	the drav	wings:		
•		pages	, as originally filed		
		pages	, nied with the demand		
		pages	, filed with the letter of		
ı		he seme	ence listing part of the description:		
'	' لــــا	pages	, as originally filed		
		pages	, filed with the demand		
		pages	, filed with the letter of		
2.	4144	nternatio se eleme	to the language, all the elements marked above were available or furnished to this Authority in the language in which anal application was filed, unless otherwise indicated under this item. ats were available or furnished to this Authority in the following language which is:		
	닏		nguage of a translation furnished for the purposes of international search (under Rule 23.1(b)).		
	H	the las	nguage of publication of the international application (under Rule 48.3(b)).		
	لـا	or 55.	,		
3.	Wit prel	h regard iminary	I to any nucleotide and/or amino acid sequence disclosed in the international application, the international examination was carried out on the basis of the sequence listing:		
		conta	ined in the international application in written form.		
į		1	together with the international application in computer readable form.		
1			hed subsequently to this Authority in written form.		
1			thed subsequently to this Authority in computer readable form.		
		The intern	statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the national application as filed has been furnished.		
		The	statement that the information recorded in computer readable form is identical to the written sequence listing has furnished.		
4.		The a	mendments have resulted in the cancellation of:		
			the description, pages		
		П	the claims, Nos.		
			the drawings, sheets/fig		
5.		This i	report has been established as if (some of) the amendments had not been made, since they have been considered to go did the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**		
*	in t	lacemen this repo	t sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to ort as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16		
*	* Any	replace	ment sheet containing such amendments must be referred to under item 1 and annexed to this report.

v.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
1.	Statement				
	Novelty (N)	Claims	1-42	YES	
		Claims		NO	
	Inventive step (IS)	Claims	1-42	YES	
		Claims		NO	

2. Citations and explanations

Industrial applicability (IA)

Document 1: JP 2001-318627 A (Semiconductor Energy Laboratory Co., Ltd.), 16 November 2001, paragraphs [0029] to [0034]; [fig. 18]

Claims

Claims

Document 2: JP 2001-147659 A (Sony Corporation), 29 May 2001, paragraphs [0015] to [0018]; [fig. 1]

Claims 1 to 42

Documents 1 and 2 do not set forth a feature wherein the charge of gradation pixel data written in the holding capacitor is released for a predetermined time through the drive transistor, after which the gate electrode of the drive transistor is made to float, and said feature would not be obvious to a person skilled in the art.
